P. & L. E. CRUSADE

Railroad Company Arresting Persons

Parking Cars at Station.

Under the direction of W. C. Gehlbach, chief of the Pittsburgh & Lake Erie police force, Young division, a crusade is on to break up parking cars about the passenger station on the West Side. A number of arrests have been made. Yesterday three were assessed \$10.50 and costs by Alderman Fred Munk. Earlier in the week nine were before the alderman but were discharged because nobody appeared against them. They will be re-arrested, Chief Gehlbach said.

An order of the Railroad Administration prohibits parking about the station longer than 15 minutes. An officer is on the scene to tag cars which are left longer than the stipulated time.

ON ENGINE PILOT

Adelaide Men Have to Pay for At-

tempt to Thru Ride Home.

George and Stephen Adams, brothers of Adelaide, were arrested Wednesday night by a Pittsburgh & Lake Erie officer as they were about to ride to their home on the pilot of the engine of a passenger train.

The men were taken before Alderman Fred Munk and committed to jail on a charge of violating an order of the Railroad Administration which prohibits riding on the pilot of a passenger engine. Their fines of \$6.80 were paid after they had been taken to the station.

SCHOOL TEACHERS
WILL RECEIVE AN
INCREASE IN PAY

Will Cost the State \$10 to \$20 per Month for Each Teacher, or a Total of \$10,500,000.

HARRISBURG, June 27.—An appropriation of \$10,500,000 as the state's share toward the increase of teachers' salaries was carried by the Woodruff bill which passed the House and Senate before adjournment yesterday.

The amended bill provides for a wage base of \$50, \$70 and \$80 per month, as compared to the old standard of \$45, \$55 and \$60. The minimum wage is for teachers holding provisional certificates, the second for teachers with normal school certificates and the highest for teachers with permanent certificates.

The state pays \$12.50 per month toward the salary of the teachers holding professional certificates, and \$20 per month toward the salary of permanent certificate holders in all of the districts except Philadelphia and Pittsburgh. All teachers in the rural schools holding better than a provisional certificate, receive \$10 per month by the state. This is in addition to the minimum salary the state must pay under the regular schedule.

Teachers in all classes of districts receiving less than \$100 a month are assured an increase of 25 per cent; those receiving more than \$100 and less than \$150, are assured an increase of 20 per cent; those receiving between \$150 and \$200 are assured an increase of 15 per cent, and those receiving more than \$200, an increase of \$10.

RED CROSS DAY

Will be Observed at All Churches During the Season.

The Fayette county chapter has been notified by division headquarters that Red Cross day will be observed at all churches during the summer. The speakers on these days will be Red Cross nurses of wide experience and reputation.

This plan has been adopted by the department of nursing in an endeavor to bring forcibly before the American public the necessity of adopting and carrying on the proposed public health nursing program and the employment of community nurses in all districts throughout the United States. Notice has been received that Miss Isabelle Bryne will be the Fairchase Chautauqua July 2. Miss Elizabeth Walsh at Connellsville July 11 and at Uniontown July 12.

In justification of this plan for community nurses the Red Cross brings out the fact that:

One in every five babies dies before its first birthday.
Contagious diseases kill 300,000 children every year and permanently injure countless others.
One in every 10 men and women dies of tuberculosis in the prime of life.

Countless numbers of men, women and children are hampered and distressed by ill health.

And yet the prevention of much of this sickness and these premature deaths is within the control of man.

D. S. C. FOR CAPT. BOYLE

Commander of 110th Machine Gun Company is Thus Honored.

At a ceremony held in the Red Cross hut at the Parkview Hospital, Pittsburgh, yesterday afternoon, Captain J. Edward Boyle of the 110th Machine Gun Company was decorated with the Distinguished Service Cross.

The medal was presented by Colonel E. D. Krenners, who stated that Captain Boyle was awarded the cross for extraordinary heroism in action at Varennes, France, September 28, 1918, where he was wounded 11 times while bringing his company into action.

Seeing that his wounds caused uneasiness among his men, he assembled his platoon leaders and assigned them to their different missions. Although bleeding profusely from his numerous wounds, he set the men an example of coolness and bravery, and inspired by him the men moved into action at a critical moment of the fight.

Call of Safety Committee

To the Public:
On account of the immense crowds expected in Connellsville during the Fayette County Home-Coming celebration the week beginning July 6, it is essential that the fire risk in the city be reduced as far as possible. To this end a general cleanup of all waste and inflammable materials is desired, especially in cellars and out of the way places. This includes stores, business houses, places of amusement, residences, and stables within the city limits.

Authorized inspectors will make a rigid inspection of all premises prior to the celebration.

C. G. BREHM, Acting Director of Public Safety.

BITTEN BY DOG MARCH 16
SOUTH CONNELLVILLE MAN
IS DEAD FROM HYDROPHOBIA

A bite received from a puppy dog on March 16 today caused the death of Richard Schroyer, 29 years old, of South Connellsville. He died at 1:30 o'clock this afternoon, suffering all the horrors of hydrophobia.

The case is a most unusual one. At the time of being bitten he paid no attention to the slight injury. The dog's tooth pierced his finger nail, discoloring it a little. He went about his work as usual, however, from that time until Monday of this week. On that day he felt a slight pain in the finger. Tuesday he went to a physician for treatment of the rheumatism of the arm. Thursday when the doc-

tor called at his home all the symptoms of hydrophobia were evident.

A telegram was immediately sent for the Pastor to give him in hydrophobia cases, but it did not arrive in time. The unfortunate man suffered intensely and efforts to relieve him were futile.

The dog which bit him died about five days afterwards. It never showed signs of being mad, however, and it was thought its death was due to poisoning.

The deceased was a married man and is survived by his wife and three children.

SOUTH SIDE HOSPITAL IS
SECURED FOR USE OF CITY
DURING THE HOME-COMINGWASHINGTON IN
DARK AS TO WHAT
WILSON WILL DO

Belief is President Will Not Attempt to Lift War-Time Prohibition Jan. Now.

By Associated Press.

WASHINGTON, June 27.—Despite a multitude of rumors and reports as to what President Wilson intends to do on annulling war-time prohibition so far as it affects wines and beer after July 1 apparently there is no one in Washington who knows the President's mind and there is no agreement among administration officials as to the likelihood of his action.

Those who hold that the President will take no action declare his recommendation to the extraordinary session of Congress for repeal of the prohibition statutes in part was based on an opinion from the attorney general's office that Congress, by the phraseology of the legislation, had shown him of the power to take action at this time.

The House Judiciary committee today voted 17 to two to report out all prohibition enforcement legislation in one general bill with the war-time enforcement measure set down as part one.

CROWN PRINCE STILL
IN HOLLAND, OFFICIAL
HAGUE ANNOUNCEMENT

Report of Escape into Germany from British Sources Was Accepted Without Question.

By Associated Press.

THE HAGUE, June 27.—Frederick William Hohenzollern, the former German crown prince, whose escape from Holland to Germany had been reported was still at his residence on the island of Wieringen in the Zuider Zee this morning, it was officially announced here this afternoon.

Thursday's report of the escape of the former crown prince from his internment in Holland, it appears from the available advices, came from British official sources in Paris. The accuracy of the news apparently was accepted without question in peace conference circles.

As the hours passed without details of the reported happenings doubt began to arise whether the British advices were correct. It was even suggested by one of the Paris newspapers that the former crown prince had been out on a lark within the territorial limit and that this had given rise to reports that he had fled into Germany.

Ornament of a very pale blue was the chief factor in the making of this bit of daintiness. It shined itself into a crown for the hat. The Effects of Opiates.

THAT INFANTS are peculiarly susceptible to opium and its various preparations, all of which are narcotic, is well known. Even in the smallest doses, if continued, these opiates cause changes in the functions and growth of the cells which are likely to become permanent, causing imbecility, mental perversion, a craving for alcohol or narcotics in later life. Nervous diseases, such as intractable nervous dyspepsia and lack of staying powers are a result of dosing with opiates or narcotics to keep children quiet in their infancy. The rule among physicians is that children should never receive opiates in the smallest doses for more than a day at a time, and only then if unavoidable.

The administration of Anodynes, Drops, Cordials, Soothing Syrup and other narcotics to children by any but a physician cannot be too strongly deprecated, and the druggists should not be a party to it. Children who are ill need the attention of a physician, and it is nothing less than a crime to dose them willfully with narcotics.

Castoria contains no narcotics if it bears the signature of Chas. H. Fletcher. Genuine Castoria always bears the signature of Chas. H. Fletcher.

AUTOMOBILES COLLIDE

Edgar Walters, Local Driver, Arrested as Result of Crash.

Edgar Walters, employed by a local garage, charged with reckless driving, was arrested in Uniontown yesterday, and the high powered Winton automobile owned by Dave Cohen of this city was badly damaged as the result of a collision in Hogsett's cut, near Uniontown, between it and a truck of the Westmoreland Grocery company, driven by Raymond Kerfoot of Uniontown. Walters denies the charge of striding a buggy near Leisenring, which was also preferred against him, the buggy being driven by William Nelson.

The Winton was being driven to Uniontown by Walters to secure some parts for it. He was accompanied by J. E. Hare and another person. Hare went to the Uniontown hospital to have injuries, received in the collision with the truck, dressed.

Walters and the two passengers in the car deny that he was driving recklessly. The collision at the cut, the local men say, occurred in such a manner that it could hardly have been avoided. The damaged Winton was taken in charge by Motorcycles Policeman P. J. Wright of Uniontown, who preferred charges of reckless driving against Walters before Alderman John W. Da-ty.

FIGHT, NOT FIRE

Department Responds to Call of Excited Greenwood Woman.

When an excited woman called the fire department by phone last evening about 6:30 o'clock the truck hurriedly made a run into Greenwood to extinguish a "big fire." Nothing could be found on Eighth street and the firemen went to Ninth. There was no fire there but a big crowd was found gathered in South Ninth.

It developed that a fight had been going on, and the woman in calling the department had said there was a "big fight" in stead of a "big fire," but in her excitement she could not be plainly understood.

Splendid Way to Reduce Your Weight

There is perhaps no one thing that so plainly shows the passing of our youth as the horrible tendency to put on too much weight after we have reached the age of 35 or 40 years. However young our faces may appear, the sagging, flabby figure and forty inch waist "gives us away."

The cause of this "over stoutness" is that our stomachs convert the food we eat into fat because there is not enough oxygen in the blood to produce a proper combustion of "fat" tissue. The excess fatty tissue. Fat people will be pleased to learn of a simple home method that is wonderfully efficient in reducing weight, quickly and easily without a starving diet, violent massage or strenuous exercise. Go to any drug store and get a box of Phynola; take five grains after each meal and at bed time. This treatment will often give quick relief from overindulging fat. Phynola taken at meal time assists the stomach in giving you the benefit of the food you eat; at the same time dissolves the fatty tissue from any part of the body where there is excessive fat. By this method many have reduced their weight a pound a day and there is no flabbiness left. C. Roy Hestel, Laughrey Drug Co., A. A. Clarke can supply you with the genuine Phynola at a small cost—adv.

**DESECRATING THE NATION'S
BIRTHDAY.**

The country at large is quite certain to be very much in sympathy with the movement made in Congress yesterday to stop what Congressman Randall designates "the threatened desecration of the nation's birthday" by a prize fight between Willard and Dempsey at Toledo, O. on July Fourth.

The proposed bill is objected to not only because it is scheduled to take place on a day which should not be profaned by such an exhibition. The public is fully convinced that it is to be a commercial undertaking pure and simple for the contestants and the promoters, with gambling on the result as a side issue, rather than a test of science, strength and skill in the art of self defense.

"One of the participants in this proposed fight," Congressman Randall declares, "engaged in a similar fight a few years ago with Jack Johnson, a fugitive from justice, who has confessed he was bought off and threw the fight to his adversary." It has not been charged that such an arrangement has been made in the present instance, but the fact that the articles of agreement provide that the loser of the fight shall himself win a fortune, tends to strengthen the belief of many persons that it is to be a money-making enterprise for the contestants, with shares of the purse, gate receipts and moving picture rights of greater importance than theistic honors to be won.

Because the so-called sport has lost the element of cleanliness, has degenerated into a form of gambling and is now, as always, brutalizing in its tendencies and influences, it has been outlawed in practically every state in the union. To pull off a fight on the Fourth of July is, therefore, abhorrent to most people. It becomes even more repulsive when it is recalled that both of the men who are to engage in the slugging match evaded military duty during the war, thereby losing the best chance of their lives to measure their strength and skill against the self-styled champions who had challenged the world to dispute the title.

It is this fact that stirred Congressman Randall to ask: "Why should a fight between bruiser slackers who were not brave enough to join the war against German murderers be permitted in this country?"

It will also stir many other people to applaud the stand the California congressman has taken against a shameful desecration of the nation's birthday.

Berlin is reaping of the whirlwind sown to the wind of Kultur.

There was nothing unusual in the discovery by the officials of the United States Steel Corporation that conditions at the plants of the H. C. Frick Coke company are satisfactory. That is the way they are kept at all times.

If you were to ask the Dutch they would very probably tell you that the escape of the ex-convict plane has left no aching void in Holland.

It is noticeable that President Polk care did not express himself as sharing the feeling of President Wilson that the latter's prospect of leaving France "is very painful."

Through the legislative session just closed Governor Spruel has made his inaugural pledges good. That's a habit with Republican executives, when aided by skilled leaders like Senator W. E. Crow.

But three more days until July. Thrill ushers in the new calendar.

As stars of the first magnitude in the pagan's calendar it should be very easy for our leading citizens to both play and look the part of the leading citizens of earlier days.

There's going to be some Knotted Broom at Versailles when the Germans place their names on the Dotted Line.

THE BITTER AND THE SWEET.
Don't expect all of the joy to come your way.
Don't expect trouble to pass up your doorway.

Don't look for blue skies forever above you.
Rejoice in the few friends who trust you and love you.
Make much of the roses that fall to your feet.

But don't lose faith when it's your time for weeping.

Don't expect life to be sunshine and laughter.
There's seldom a joy but a care follows after.

Make much of the loved ones who tenderly kiss you.
But don't expect trouble and heartache to miss you.
Be ready for grief; it may find you to-morrow.

Don't call life unjust when it's your time for sorrow.

The sorrows of life are as sure as its pleasures.
And each in his turn shall drink out of both measures.
Drink deep of the sweet when life is completeness.
But still be prepared to know life is completeness.

Don't rail at your God when it's your day for sighing.
And don't lose faith when your soul is in trying.

**ECONOMY
SALES**

Last week we were advertising Inventory Sales. An Inventory Sale means an Economy Sale, and an Economy Sale means a general closing out of odds and ends, lines which have not been moving out as expected, lines which we are excessively heavy on. Economy sales further mean a reduction, so prepare to visit our stores and take advantage of our economy sales. You will find in women's, misses', and children's wear, distinctive styles and you will find prices that we defy any competition to match. There are some odds and ends in women's misses', and children's dresses, shirt waists, skirts, underwear, hosiery, and other furnishings that are being closed out at reduced prices, although they are among the choicest values in our stores. There are lines which we are overloaded on in staple and fancy dry goods; ribbons of choice colors and popular widths; there are handkerchiefs, undergarments, and other lines that we take this cut-price method to move out. There are some very choice goods in women's, misses' and children's wear that are not moving as expected and we take this cut-price method also of moving them out. Remember that they are not old goods, not shoddy stuff that you see in clearance sales around town stores; high class merchandise at reduced prices—that's why we call it an Economy Sale. During the balance of this month these bargains will be offered.

Stomach is Quick to Upset When School Children Are Idle

VACATION days are days of over-eating and under-exercising for most boys and girls. They loiter around nibbling at light food, unconcerned whether the fruit is green or ripe.

The result is cramps, skin eruptions, pimples, "summer colds," constipation and diarrhea. The basis of such trouble is an upset stomach, and nothing will give safer and quicker relief than the well-known Dr. Caldwell's Syrup Pepsin. It is just a combination of simple laxative herbs with pepsin, a formula evolved some 30 years ago by Dr. Caldwell himself. Syrup Pepsin is now used by millions of people, and is today the largest-selling liquid laxative in the world.

A bottle of Dr. Caldwell's Syrup Pepsin can be bought at any drug store for 50c and \$1, the latter the family size. A free trial bottle can be had by sending your address to Dr. W. B. Caldwell, 480 Washington St., Monticello, Ill.

CLOSING-HOTEL BOOMS BUSINESS OF RESTAURANTS

Dunbar Eating Places Hardly Can Accommodate Their Patrons.

LIEUT. WILSON RETURNING

Cablegram to Father Tells of His Early Arrival in Native Land; Pechin Has Baseball Fever, Team Organizing; Other News of the Day.

Special to The Courier.
DUNBAR, June 27—Since the closing of the Central hotel the restaurant business in Dunbar has been booming. Mr. Toby, who runs a restaurant near the West Penn stop at the Dunbar house, has been pressed to find room to accommodate patrons, and some have had to wait for service till their patience has been exhausted, so he has asked G. H. Swearingen for more room. In order to accommodate him, as well as the public, Mr. Swearingen is erecting a barber shop at the north end of the restaurant building, and Jackson & Bird, who now occupy a part of the restaurant building will take possession of the new building and leave their present quarters to Mr. Toby, whose restaurant room will thus be increased 100 per cent. The foundation for the new barber shop has been completed and work on the building will be rushed to completion as soon as possible. It is hoped to have the shop ready for occupancy on August 1.

Mr. and Mrs. E. H. Walters, who have been visiting Dunbar relatives for the past several days, returned to their home in Dortmund Wednesday afternoon. They came up in their Ford and report the roads generally very good. Both Mr. and Mrs. Walters are natives of this place, but moved to Allegheny county about 16 years ago. Mr. Walters occupies a responsible position with the Jones & McLaughlin company. His parents reside on Furnace hill and his wife's mother, Mrs. Hannah McClain, lives at Keffer's. Mrs. Walters having formerly been Miss Jennie McClain.

Mr. and Mrs. David A. Keffer of Clairton, who have been visiting their son, W. G. Keffer, postmaster of South

IF THIN AND NERVOUS, TRY PHOSPHATE

Nothing Like Plain Bitro-Phosphate to Put on Firm, Healthy Flesh and to Increase Strength, Vigor and Nerve Force.

When one stops to consider the host of thin people who are searching continually for some method by which they may increase their flesh to normal proportions by the filling out of ugly hollows, the rounding off of protruding angles with the attendant bloom of health and attractiveness, it is no wonder that many varied suggestions along this line appear from time to time in public print. While excessive thinness might be attributed to various and subtle causes in different individuals it is a well-known fact that the lack of sufficient phosphorus in the human system is very largely responsible for this condition. Experiments on humans and animals by many scientists have demonstrated beyond question of doubt that a body deficient in phosphorus becomes nervous, sickly and thin. A noted author and professor in his book, "Chemistry and Food Nutrition," published in 1918, says: "It is the amount of phosphorus required for the normal nutrition of man is seriously underestimated in many of our standard text books."

It seems to be well established that this deficiency in phosphorus may now be met by the use of an organic phosphate known throughout English speaking countries as Bitro-Phosphate. Through the assimilation of this phosphate by the nerve tissue the phosphoric content when absorbed in the amount normally required by nature soon produces a welcome change in our body and mind. Nerve tension disappears, vigor and strength replace weakness and lack of energy, and the whole body soon loses its ugly hollows and abrupt angles, becoming enveloped in a glow of perfect health and beauty and the will and strength to be up and doing. It is sold by the Connelleville Drug Co. in Connelleville and all good druggists.

CAUTION—While Bitro-Phosphate is unsurpassed for the relief of nervous general debility, etc., those taking it who do not desire to put on flesh should use extra care in avoiding fat-producing foods.—Adv.

Connellsville, for a few days, were at Keffer's yesterday visiting at J. L. Keffer's, the latter being his brother.

Rev. J. W. Wilson on Monday received a cablegram announcing that his son, Second Lieutenant Charles Wilson, who has been overseas during the war, and was selected as a member of the Army of Occupation, is homeward bound. It is taken for granted that his resignation, twice before refused, has at last been accepted and he released from the service. When he will arrive in America is not known, but he is expected within the next 10 days. After visiting his parents here he will reside in Washington, D. C., where a responsible clerical position awaits him. His wife having filled the position during his enlistment, will now surrender the place to him and assume the higher role of homemaker.

The baseball fever has struck Pechin and a team, with a record to make, has been organized and is practicing every night the weather permits. Time was when Pechin had a crack ball team, and the present organization hopes to add further honors to that enviable record.

Misses Ada and Reine Carroll have returned from their visit to Georgia, and both are delighted with the country and its people. Miss Reine says that while the south appeals to her strongly, the claims of old Fayette are stronger still, and she is glad to be back home again.

George W. Franks of Keffer's proposes to sell his property and locate in the "wild and woolly west," pre-empting a government homestead.

Truck-owners a guide to the entire motoring public

MOST motor-trucks in this State use Atlantic Gasoline. And not only "most", but really an overwhelming majority.

Such conditions do not "just happen". There is invariably a reason. In this case, the reason is that thousands of penny-paring, cost-finding business men put Atlantic Gasoline to the test of the road—and Atlantic showed a tremendous balance of miles in its favor.

Therefore, we refer with pride to those thrifty truck-owners who have adopted Atlantic Gasoline as the standard motor-fuel, not alone for their fleets of trucks, but for their pleasure-cars as well.

Profit by their experience. Use Atlantic Gasoline regularly. It's a great tonic for tired motors.

But it is a disgrace to permit them to remain and thrive when it is so easy to get rid of them with the new chemical compound P. D. Q. which actually puts an end to these pesky devils.

A MILLION BEDBUGS

A 3-cent package of this golden chemical will make a quart of a mixture that is so deadly to bedbugs that it would kill a million of them if you could get that many together. If they were as big as your hand it would eat them just as well. And not only the live ones, but the future generations as well because once it hits the eggs they are gone.

CUT THIS OUT

Your druggist has P. D. Q. (Pesky Devil's Quietener) and will be glad to furnish it for 35 cents. One 35 cent package makes a quart of the mixture and is equal to a barrel of old-fashioned bug killer. Some druggists may try to sell you something else. Don't accept a substitute. If your druggist hasn't P. D. Q., send us his name and 35 cents and we will send you a package postage prepaid to your address.

WILL NOT DAMAGE GOODS

P. D. Q. will not injure delicate fabrics, clothing, carpets, furniture, bedding, wall paper or woodwork. In fact, it is so safe that it can be used on all surfaces.

KILLS FLEAS ON DOGS

If you have a dog who is infested with fleas take a little P. D. Q. mixture in your hand and rub it into the fur. Then watch the fleas leap the loop. They will be dead before the King Solomon before they hit the floor.

CHICKEN LICE DESTROYER

Have your chickens get lice? Don't hesitate. Get a package of P. D. Q. it is directed and then get busy in the hen house. It is so easy you'll laugh and so will the chickens. By the way, did you ever see a chicken laugh? Try this and watch em.

FOR ANTS AND COCKROACHES

The ants and cockroaches stand just as good a chance of surviving a treatment of P. D. Q. as a snowball in a justly famed Heat Resistor. It swats them and their eggs with a swiftness that puts their whole generation out of business. Use it on floors in storage to kill and keep out moths.

A BEDBUG SPOUT

Every package of P. D. Q. contains a patent spout that fits any ordinary bottle. It will enable you to reach the hard-to-get at places and save lots of juice. When buying look for the Devil Heads on every package of P. D. Q. then you'll be sure to get the genuine.

The Labor Feature of the League of Nations

Many as were Record Baltimore

The labor feature of the League of Nations is one of the most comprehensive doctrines ever penned by human hands. It is well-nigh impossible to understand the complex problems and propositions of the international labor scheme operate under the League of Nations. It is proposed that a permanent organization be established and the original members of the League of Nations there is to be an International Labor Office controlled by the governing body. This governing body shall be composed of twelve persons representing the government, six persons selected by the delegates to the conference representing the employers, and six persons elected by the delegates to the conference representing the workers. These members are to hold office for three years. The staff of the International Labor Office shall be appointed by the director, who shall, so far as is possible with due regard to the efficiency of the work of the office, select persons of different nationalities. It will "edit and publish in French and English, and any such other language as the governing body may think desirable, a periodical paper dealing with problems of industry and employment of international interest." Details are given as to the expenses of those attending the meetings of the conference or governing body. The conference shall regulate its own procedure and shall elect its own president, and may appoint committees to consider and report on any matter.

Except as otherwise expressly provided, all matters shall be decided by a simple majority of the votes by the delegates present. It is conceivable that the United States might be in the minority and its delegates might vigorously protest, but protest in vain, against a decision of the majority.

The covenant says: "In framing any recommendations or draft convention of general application the conference shall have due regard to those countries in which conditions, the industrial development of industrial organization or special circumstances make the industrial conditions substantially different, and shall suggest the modifications, if any, which it considers may be required to meet the case of such countries."

Under this broad glittering generality almost anything regarding labor might be considered and decided. The governing body is authorized to investigate any complaint pertaining to labor questions which may be filed by any member of the International Labor Office, and the members agree

in the event of the reference of a complaint to a commission of inquiry they will each, whether directly concerned in the complaint or not place at the disposal of the commission all the information in their possession which bears upon the matter.

This Commission of Inquiry is authorized to recommend the measures, if any of an economic character against a government which fails to comply with its recommendations.

In the event of any member failing to take action required with regard to a recommendation or draft convention, any other member shall be entitled to refer the matter to the Permanent Court of International Justice. This Permanent Court of International Justice is to be an organization of very great power. It will have authority to indicate what economic measures, if any, all other governments would be justified in adopting against a defaulting government which is an indication that this Permanent Court of International Justice would have the authority to institute any economic boycott which might seem wise against any country which had failed to comply with its recommendations. Any question or dispute relative to the interpretation of this part of the present treaty or of any subsequent convention included by the members shall be referred for decision to the Permanent Court of International Justice. The question may be raised very properly, we think, as to whether this Permanent Court of International Justice is to be superior in authority to the Supreme Court of the United States. It is quite conceivable that our Supreme Court might have rendered a decision on some subject relating to the industrial or labor affairs, but that the loser in the case, being dissatisfied, might appeal to the Permanent Court of International Justice, and apparently, though this question may require the closest study by the ablest lawyers of the country the decision of the international court would supersede the decision of the Supreme Court of the United States. This is a point we believe has not been given adequate consideration. But we are advised that the best opinion in Washington is that if the Supreme Court should ratify as constitutional our entrance into the League of Nations it would thereby make the work of the league superior to any subsequent decision our Supreme Court might render. The issue is beyond man's power to comprehend.

FIREMEN IN MOURNING

Loss of Pet Groundhog in Great Shock to City Department.

The fire department is in mourning and the chief mourner is Fireman "Doc" Shumaker. The department has lost its pet groundhog which was adopted as mascot about two weeks ago. Not a single member of the department is left, with the exception of numerous holes in the yard in the rear of the station, obligingly dug by "Doc" official caretaker of the pig.

The animal disappeared Monday night. For the past two weeks Shumaker has been carefully guarding it, and soon was to have begun training it to do stunts chief among which was to hold "Doc's" specs during fire Monday night, howe'er he forgot to put the pig indoors and Tuesday morning it was gone, chain and all. The pig was a present from Peter Kerns.

MOTOR TRUCKS

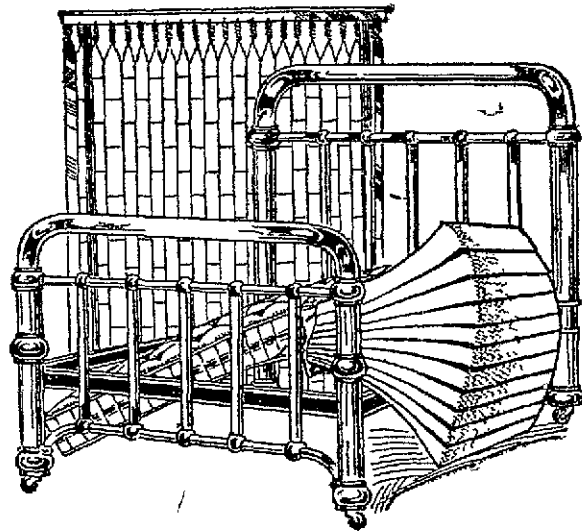

May Be Used to Develop Coal Territory in W. Va. and New Mexico.

The highways transport committee of the Council of National Defense expects to see motor trucks develop undeveloped coal fields, especially in West Virginia and New Mexico.

A report of the committee says motor transportation has been provided from mines to local markets or railroad shipping points in West Virginia.

In New Mexico particularly in San Juan county, in which are located some of the largest coal fields in the southwest, actual wealth lies dormant, because of the lack of means of transportation, according to the committee. Steps are being taken to remedy this situation. It is said.

INVASION FEARS CALLED INFLATED

War College's 1915 Estimate of Foe Exaggerated.

COULDN'T LAND SO QUICKLY

Getting 387,000 Men Over in 15 Days Impossible, as Shown by Our Own Experiment, Declares Gen. Peyton C. March, Chief of Staff—Shows How Lacking We Were in Knowledge of Shipping Large Armies.

The experiences of the United States in rushing troops overseas has made it evident that estimates given by the war department in 1915 that Germany, if not interfered with, could land 387,000 men in America in 15 days and 440,000 men in 31 days were gross exaggerations, Gen. Peyton C. March, chief of staff, said. The war department estimate was submitted by the war college to congress in the year mentioned.

Our Own Record.
"On May 1, 1917," said General March, "this army owned a troop fleet of ten vessels, with an estimated dead weight tonnage of 62,725 and a troop capacity of 10,830 men. All these were boats which it would have been possible in an extreme case to put into trans-Atlantic service, but of that group of old vessels only one, the Buford, was permanently put into this service."

"Between April 6 and September 1, 1917, the first six months, the dead weight tonnage of the United States army increased from nothing to 40,000 dead-weight tons. The troops carried eastward on these ships ran by months: April, none; May, 1,000; June, 12,000; July, 25,000; August, 35,000; September, 45,000; October, 55,000; November, 65,000; December, 75,000; January, 85,000; Being the Authentic Narrative of a Treasure Discovered in the Bahama Islands in the Year 1903—Now First Given to the Public.
BY
RICHARD LEGALLIENNE

Copyright by Doubleday, Page & Company

I agreed that nothing would please me better—so an early hour the following morning found us with the whole garrison—excepting Samson, whom it had been thought wise to leave at home as a bodyguard for Calypso—packed up at the old, ruined mansion with picks and shovels and machetes, ready to commence operations.

We had worked for a week before we made a clearance of the ground floor. Then at last we came upon a solidly built stone staircase, winding downward. After clearing away the debris with which it was choked to a depth of some twenty or thirty steps, we came to a stout wooden door studded with nails.

"The dungeon, at last," said the "king."

"The kitchen, I bet," said I. After some battering the door gave way with a crash, a moldering breath

It Was the Pirates' Wine Cellar.

as of the grave met our nostrils, and a cloud of bats flew in our faces and set the negroes screaming. A huge, cavernous blackness was before us. The "king" called for lanterns.

As we raised these above our heads and peered into the darkness, we both gave a laugh. "Yo-ho-ho—and a bottle of rum," sang the "king."

For all along the walls stood or lay prone on trellises, a silent company of hogheads, festooned with cobwebs like huge black wings. It was the pirates' wine cellar!

Such was our discovery for that day, but there is another matter which I must mention—the fact that somehow the news of our excavation seemed to have got down to the settlement. "It is a curious fact, as the 'king' observed, that if a man should start to dig for gold in the center of Bahama, with no possible means of communicating with his fellows, on the third day the world would fall to be someone to drop in and remark on the fineness of the weather. So it was with us. As a general thing not once in a twelvemonth did a human being wander into that wilderness where the 'king' had made his home. There was nothing to bring them there, and, as I have made clear, the way was not easy. Yet we had hardly begun work when one and another idler strolled in from the settlement and stood grinning his curiosity at our labors.

Toward evening of the third day we came upon a passage leading out of one of the cellars; it had such a promising appearance that we kept at work later than usual, and the sun had set and night was rapidly falling as we turned homeward.

As we came in sight of the house we were struck by the peculiar hush about it, and there were no lights in the windows.

"No lights!" the "king" and I exclaimed together, involuntarily hurrying our steps, with a foreboding of what we knew not what in our hearts. As we crossed the lawn the house loomed up dark and still and the door opening onto the loggia was a square of blackness in a gloom of shadows hardly less profound. Not a sound, not a sign of life!

"Calypso!" we both cried out, as we rushed across the loggia. "Calypso! where are you?"—but there was no answer; and then I, being ahead of the "king," stumbled over something dully lying across the doorway.

"Good heaven! what is this!" I cried, and bending down I saw that it was Samson.

The "king" struck a match. Yes! it was Samson, poor fellow; with a dagger firmly planted in his heart.

Near by something white caught my eye attached to the lintel of the doorway. It was a piece of paper held there with a sailor's knife. I tore it off in a frenzy, and the "king" striking another match—we read it together. If bore but a few words, written all in capital letters with a coarse pen:

"WILL RETURN THE LADY IN EXCHANGE FOR THE TREASURE," and it was signed "H. P. T."

TO BE CONTINUED.

HIS WIFE'S NERVES ARE STEADIER NOW

Fred Westendorf, 2121 North Second street, a retired business man, speaking for his wife, says: "The sufferer from nervousness and distress and all run down. She had several operations, her head being out in three places and was in the hospital four weeks. She didn't seem to gain strength. She heard about Tanlac and began taking it. She is convinced that Tanlac is a good tonic. She is now about well."

The genuine J. I. Galt Co. Tanlac is sold here by Eighley's, Harrison's and Connelleville drug stores and other leading druggists.

Acid Stomach Makes 9 Out of 10 People Suffer

Doctors declare that more than 90 per cent of all diseases can be traced to Acid Stomach. Starting with indigestion, heartburn, belching, flatulence, bloating, nervousness, the entire system eventually becomes affected, every vital organ suffering in some degree or other. But not these victims of acid stomach everywhere—people who are subject to nervousness, headache, insomnia, biliousness—people who suffer from rheumatism, lumbago, sciatica and other pains, all over the body, it is safe to say that about 9 people out of 10 suffer to some extent from Acid Stomach.

If you suffer from stomach trouble or, even if you do not feel any stomach distress, yet are weak and ailing, feel tired and dragged out, "lack" pep and enthusiasm and know that something is wrong although you cannot locate the exact cause of your trouble—you naturally want to get back your grip on life as quickly as possible. Then take EATONIC, the wonderful modern remedy that brings quick relief from pains of indigestion, heartburn, gas, bloating, etc. Keep your stomach strong, clean and sweet. See how your general health improves—how quickly you get back your vigor and vitality. Get a big box of EATONIC from your druggist today. It is guaranteed to please you. If you are not satisfied your druggist will refund your money.

"ONE WEEK OF LIFE"—A Goldwyn production presenting Pauline Frederick in a powerful role is being shown today. Miss Frederick is involved in two distinct characters. As Marian Roche she is persuaded to top from her conspicuous position at the shoes, not to mention the gorgeous frocks, of Mrs. Kingsley Sherwood, to ride in the latter's limousine, sit in her box at the opera, meet all her friends and dine occasionally with her husband. But as she is unusually obsessed by too frequent flatteries, there is practically no chance of discovery. It will be a week of life of another kind. She will be free to enjoy herself as she had never dared before. Why the society woman wishes to substitute herself and how it happens that Marion is willing to enter into such a deception is brilliantly depicted in the photographs, together with the strange situations that grow out of the exchange. Not only is the star provided with a splendid role, which gives her the opportunity to "dominate" one powerful situation after another, but she is enabled to appear in a succession of costumes more gorgeous than she has ever worn on the screen. Thomas

Holding plays opposite Miss Frederick. A selected comedy is also being shown.

THE SOISSON.

"THE HUMAN SHUTTLE"—A Metro feature in which Harold Lockwood and Mae Allison are seen in delightful roles is an interesting production today. Mr. Lockwood is provided with one of the best roles of his screen career. The picture is one that you will thoroughly enjoy. It will hold your interest from the beginning to the end. A selected comedy is also being shown. Monday and Tuesday Nazimova, the celebrated actress, will be presented in "Out of the Fog," a production of high order. Its chief merit is to furnish Nazimova with two contrasting characters, each of great power.

For Acid Stomach Drink Hot Water

To Neutralize Dangerous Acid, Sweeten Stomach, Stop Indigestion.

"If dyspepsia, suffering from acid stomach, gas, wind or flatulence, gastric catarrh, heartburn, etc., would take a teaspoonful of pure Bismuth Magnesia in half a glass of hot water immediately after eating they would soon forget they were ever afflicted with stomach trouble, and doctors would have to look elsewhere for patients." Most forms of stomach troubles are due to stomach acidity and fermentation of the food contents of the stomach combined with an insufficient blood supply to the stomach. Hot water increases the blood supply and Bismuth Magnesia, which can be readily obtained at any reliable drug store, in either tablets or powder, instantly neutralizes the excessive stomach acid and stops food fermentation, the combination of the two, therefore, being marvelously successful and decidedly preferable to the use of artificial digestants, stimulants or medicines for indigestion.—Adv.

Men's Cool-Cloth and Palm Beach Suits

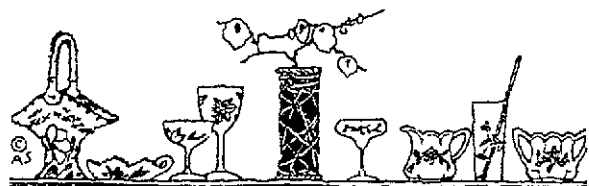

It's hard to understand why some men continue to suffer with the heat when Palm Beach Suits offer such inexpensive relief.

With the mere mention of Palm Beach some men shy for they imagine we're trying to dress them all up in white. That's not so at all—we have them in both light and dark colors and besides affording great comfort for the ensuing summer months their moderate cost makes them a convenient saving.

PRICES 10 TO 20 DOLLARS.

Pieces of Eight

Being the Authentic Narrative of a Treasure Discovered in the Bahama Islands in the Year 1903—Now First Given to the Public.

BY RICHARD LEGALLIEN

I agreed that nothing would please me better—so an early hour the following morning found us with the whole garrison—excepting Samson, whom it had been thought wise to leave at home as a bodyguard for Calypso—lined up at the old, ruined mansion with picks and shovels and machetes, ready to commence operations.

We had worked for a week before we made a clearance of the ground floor. Then at last we came upon a solidly built stone staircase, winding downward. After clearing away the debris with which it was choked to a depth of some twenty or thirty steps, we came to a stout wooden door studded with nails.

"The dungeon, at last," said the "king."

"The kitchen, I bet," said I.

After some battering the door gave way with a crash, a moldering breath

It was the Pirates' Wine Cellar.

As of the grave met our nostrils, and a cloud of bats flew in our faces and set the negroes screaming. A huge cavernous blackness was before us. The "king" called for lanterns.

As we raised these above our heads and peered into the darkness, we both gave a laugh.

"Yo-ho-ho and a bottle of rum!" sang the "king."

For all along the walls stood or lay prone on trellises, a silent company of bogbodies, festooned with cobwebs like huge black wings. It was the pirates' wine cellar!

Such was our discovery for that day, but there is another matter which I must mention—the fact that somehow the news of our excavation seemed to have got down to the settlement. It is a curious fact, as the "king" observed, that if a man should start to dig for gold in the center of Sahara, with no possible means of communicating with his fellows, on the third day there would not fail to be someone to drop in and remark on the fineness of the weather. So it was with us. As a general thing not once in a twelve months did a human being wander into that wilderness where the "king" had made his home. There was nothing to bring them there, and, as I have made clear, the way was not easy. Yet we had hardly begun work when one and another, idle nigger strolled in from the settlement and stood gazing with curiosity at our labors.

Toward evening of the third day we came upon a passage leading out of one of the cellars; it had such a promising appearance that we kept at work later than usual, and the sun had set and night was rapidly falling as we turned homeward.

As we came in sight of the house we were struck by the peculiar hush about it, and there were no lights in the windows.

"No lights," the "king" and I exclaimed together, involuntarily hurrying on step, with a foreboding of what we knew not what in our hearts. As we crossed the lawn the house loomed up dark and still and the door opening onto the loggia was a square of blackness in a gloom of shadows hardly less profound. Not a sound, not a sign of life!

"Calypso!" we both cried out, as we rushed across the loggia. "Calypso! where are you?"—but there was no answer; and then I, being ahead of the "king," stumbled over something dark lying across the doorway.

"Good heavens! what is this?" I cried, and bending down I saw that it was Samson.

The "king" struck a match. Yes! it was Samson, poor fellow, with a larger firmly planted in his heart.

Near by something white caught my eye attached to the lintel of the doorway. It was a piece of paper held there with a sailor's knife. I took it off in a frenzy, and the "king" striking another match—we read it together. It bore but a few words, written in all capital letters with a cross in the margin.

"WILL RETURN THE LADY IN EXCHANGE FOR THE TREASURE," and it was signed "H. P. T."

TO BE CONTINUED.

HIS WIFE'S NERVES ARE STEADIER NOW

Fred Westendorf, 2121 North Second street, a retired business man, speaking for his wife, says: "She suffered from nervousness and dizziness and fell down. She had several operations, her head being cut in three places and was in the hospital four weeks. She didn't seem to gain strength. She heard about Tanlac and began taking it. She is convinced that Tanlac is a good tonic. She is now about well."

The genuine J. I. Gore Co. Tanlac is sold here by Reigley's, Hammel's and Connelleville drug stores and other leading druggists.

"ONE WEEK OF LIFE"—A Goldwyn production presenting Pauline Frederick in a powerful role is being shown today. Miss Frederick is involved in two distinct characters. As Marian Roche she is persuaded to step from her conspicuous position of gorgeous frocks, to mention the gorgeous frocks, to a Kingsley Sherwood, to ride in the latter's limousine, sit in her box at the opera, meet all her friends and dine socially with her husband. But as he is unusually obscured by too frequent variations, there is practically no chance of discovery. It will be a week of life of another kind. She will be free to enjoy herself as she had never dared before. Why the society woman wishes to substitute herself and now it happens that Marion is willing to enter into such a deception is brilliantly depicted in the photodrama, together with the strange situations that grow out of the exchange. Not only is the star provided with a splendid role, which gives her the opportunity to dominate one powerful situation after another, but she is enabled to appear in a succession of costumes more gorgeous than she has ever worn on the screen. Thomas

Holding plays opposite Miss Frederick. A selected comedy is also being shown.

THE SOLISSON.

"THE HUMAN SHUTTLE"—A Metro feature in which Harold Lockwood and Mae Allison are seen in delightful roles is an interesting production today. Mr. Lockwood is provided with one of the best roles of his screen career. The picture is one that you will thoroughly enjoy. It will hold your interest from the beginning to the end. A selected comedy is also being shown Monday and Tuesday Nazimova, the celebrated actress, will be presented in "Out of the Fog," a production of high order. Its chief merit is to furnish Nazimova with two contrasting characters, each of great power.

For Acid Stomach Drink Hot Water

To Neutralize Dangerous Acid, Sweeten Stomach, Stop Indigestion.

"If dyspeptics, sufferers from acid stomach, gas, wind or flatulence, gastric catarrh, heartburn, etc., would take a teaspoonful of pure Bileated Magnesia in half a glass of hot water immediately after eating they would soon forget they were ever afflicted with stomach trouble, and doctors would have to look elsewhere for patients." Many forms of stomach troubles are due to stomach acidity and fermentation of the food contents of the stomach combined with an insufficient blood supply to the stomach. Hot water increases the blood supply and Bileated Magnesia, which can be readily obtained at any reliable drug store, in either tablets or powder, instantly neutralizes the excessive stomach acid and stops food fermentation, the combination of the two, therefore, being marvelously successful and decidedly preferable to the use of artificial digestants, stimulants or medicines for indigestion.—Adv.
